2022-2023 One-Year Certification Programs at QAV

General Admission Requirements

Curiosity, Commitment, and a Willingness to Transform

QAV's focus is upon the following **fields of human endeavor**

- *Quantum Activism;*
- *Quantum Holistic Health;*
- *Quantum Life Coaching, and*
- *Personal Growth via Quantum Yoga and Spirituality.*

Each program will enable you to seek a living with a semi-professional pursuit that satisfies.

Quantum science is the science of consciousness and all its experiences integrating science and spirituality. It incorporates the science of the current human condition as well as the science of transformation to a state of optimal human functioning using the infinite quantum potentialities of our consciousness. The quantum worldview allows us an integral holistic approach to higher education.

The courses are offered online using in-depth video series, textbooks and experiential manuals and practical guidance. Students are encouraged to share questions and comments via email, and they should anticipate timely responses from assigned faculty, consisting of quantum physicist and pioneer of consciousness research, Amit Goswami, PhD and his collaborators, who, in turn, boast a wide range of experience and disciplines.

WHY TRANSFORMATIVE EDUCATION?

Education today, at all levels, is more or less job training. Transformative education, to the contrary, aims to expand and optimize your current knowledge base, abilities and intelligence. The fields of human endeavors upon which we concentrate—health, prosperity, and happiness—all involve human interactions and relationships.

Quantum science based on quantum theory, empirical data, and experiences of the savant through millennia, has established that our consciousness has both a personal and transpersonal aspect. Whether educated or not, me-centeredness undermines the average adult today. Thus, many professionals, aiming to promote health, happiness, and prosperity amongst the general public, are woefully unprepared to do so as they have limited ability or concept of how to approach and care for another.

QAV's transformative education will specifically seek to facilitate your transformation by assisting you to explore the following:

- *WHO ARE YOU, AND WHAT IS YOUR RELATIONSHIP TO OTHERS?*
- *HOW CAN YOU FIND MEANING AND PURPOSE IN YOUR LIFE?*
- *HOW CAN YOU BECOME MORE CREATIVE?*
- *HOW MIGHT YOU PREVENT DISEASE AND MAINTAIN WELLBEING?*
- *HOW CAN YOU ACHIEVE HAPPINESS?*
- *HOW MIGHT YOU EXPLORE LOVE?*
- *HOW CAN YOU EXPLORE AND ACTUALIZE WHAT YOU HAVE LEARNED IN YOUR PAST LIVES?*
- *HOW MIGHT YOU BRING YOUR INTENTIONS TO FRUITION?*
- *HOW MIGHT YOU GET GOD ON YOUR SIDE?*
- *HOW CAN YOU CLIMB THE LADDER OF INTELLIGENCE?*

Practical Information

All certification courses will contain, in addition to the following video series and corresponding webinars, transformative quantum yoga theory and practices.

The purpose of these programs is to train a new line of professionals who are able to think and live the quantum worldview that integrates science and spirituality and bring archetypal values such as love, goodness, truth, justice, and wholeness in their professional life.

In our view, the degrees earned with current higher education are not necessarily a good indicator of the qualities you need for becoming a quantum professional which are to mention a few: Interest in higher needs, discipline, creativity, empathy, Intellect, authenticity, and resilience. Therefore, there are no specific degree requirement; if you feel you have the aforementioned qualities you can apply.

THE CERTIFICATIONS PROGRAMS ARE OFFERED ENTIRELY ONLINE.

It will take you a minimum one year to complete a certification consisting of roughly 3 courses per semester. Under special circumstances, you can be eligible to pace yourself and finish the program within two years.

At the end of your chosen program, you will do an online exam, written and oral.

We recommend you to also do a proximity program, in any of our worldwide intensive workshops (mainly Brazil, Portugal and India), if you are committed to transform and make of yourself a successful professional that will be able to truly help your clients.

Note: This proximity program is not, however, mandatory, although highly recommended.

Certification Programs for Quantum Professionals

1. Quantum Activism

- *Quantum Worldview (QS1)*
- *Quantum Science of Manifestation (QS2)*
- *Quantum Creativity (QS11)*
- *How Quantum Activism Can Save Civilization (QS6)*
- *Quantum Leadership and Business (QS16)*
- *Introduction to Quantum Yoga (part 1) (QS25)*

Upon successfully completing this certificate course requirement and final exam, you will be qualified to teach Quantum Activism workshops, worldwide, under the auspices of the Center for Quantum Activism.
